

Residential programs and rebates

Visit cashrebatesnow.com and explore all the ways you can save money and energy!

In-home energy audit

To help identify specific improvements to help reduce energy bills and improve home comfort, request an **in-home energy-saving audit**. Audit costs range from \$75 to \$150.

Insulation

Use an authorized insulation contractor to earn **air sealing and insulation rebates** by making improvements to your existing home. Rebates range from \$200 to \$750.

Heating system and maintenance

Our **heating system rebates for existing homes** can make a big difference. Upgrade to a high-efficiency natural gas furnace or boiler, programmable or advanced thermostat and claim rebates from \$25 to \$500.

Be sure to check out heating system **tune-up rebates**. A \$35 rebate gives you peace of mind that your heating system is operating at maximum efficiency.

Fireplace

A \$75 rebate is available for upgrading to sealed combustion, direct vented, electronic ignition hearth or fireplace in your home. You will save on your upgraded system and reduce your natural gas use year after year.

Heat/Energy recovery ventilator

Save energy, improve air quality and earn \$400 in rebates for the installation of a whole-house central heat/energy recovery ventilation system. Increase the comfort of your home and help you save all year round.

Aerosol duct sealing

Leaky ducts can reduce your heating and cooling system efficiency as much as 20%. Earn rebates of up to \$500 when a licensed contractor seals your home's duct work with qualifying aerosol duct sealing.

Water heating

Water heating is your home's second-largest natural gas user. (Home heating is first.) **Water heating rebates** ENERGY STAR®-certified models range from \$125 to \$300.

Windows

Upgrade your home with qualifying ENERGY STAR®-rated high-performance windows and receive \$50 per window.

Income eligible programs

Weatherization assistance is available to low-income customers, and the **4U2 program** is for limited-income customers. Both programs assist with improving your home's energy efficiency with weatherization and equipment replacement services. All services under these programs are available at little to no cost for income eligible customers.
